Catalogue – J. E. Worcester's Library –

Notes:

1. The words on Ms. p. 28 are written horizontally on the the left center part of the page. It functions as a title page when the document is folded.
2. The paper is 7 3/8 x 12 3/8", or 19.7 x 31.5 cm. The paper is lined in blue horizontally and probably in pencil vertically, probably, creating left and right margins. All the pages are bound at the top by a length of string. The text is written so that the text on the verso is running in the same direction as the recto.
2. The compiler designates each bookcase with a letter (or otherwise, e.g., "in the secretary"). Designating the beginning of entries, each alphabetical guide letter is centered on its own line above the entries. The numbers given to individual shelves are listed outside the list in the left margin of the paper much like the typed transcription of the document. The volume count appears in the right margin.
3. In several instances, the author wrote in a word and crossed it out. These are crossed out as well in this transcription.
4. Occasionally, words in the original document are illegible or indecipherable. Such entries are indicated by brackets and ellipses: [. . .].
5. Some transcriptions are open to interpretation and are so indicated by a question mark in brackets: [?].
6. "Halmanshire" should be "Hallamshire," p. 26.
